THE AQUAPOTS™ SOLUTION

Developed by Award-Winning Landscape Architect Jack Barnwell

As an industry professional, you're looking to offer unique, profitable solutions that set your business apart. AquaPots self-watering containers deliver just that. Your customers will be amazed how simple it can be to enhance their outdoor living spaces using one of a kind AquaPots. They will love the look of the lush, vibrant plantings, not to mention the time and hassle saved in watering.

A Stylish Solution That Really Works

AquaPots are an exceptional, patent pending concept in self-watering containers invented by award-winning landscape architect Jack Barnwell of Barnwell Landscape and Garden. As an avid user of Michael Carr Designs Pottery, Barnwell saw the need for gorgeous, commercial grade, self-watering containers for the variety of properties he services across the country. He worked with Michael Carr to develop this stylish yet practical solution for his clients.

Debuting in Spring 2020, AquaPots are the first and only premium quality glazed ceramic self-watering pots on the market. They are not an insert but rather a complete system that is integrated right into each container. AquaPots are handcrafted by artisans at Michael Carr Designs Pottery of Vietnam, a favorite luxury brand among home gardeners. The pots are crafted using time tested techniques and an old-world kiln that gives each piece its own special character.

Brought to You by Proven Winners®

The same brand that brought you some of your best selling plants like 'Limelight' hydrangeas, Wine & Roses® weigela and Supertunia Vista® Bubblegum petunias has entered into the pottery market with the debut of AquaPots by Michael Carr Designs Pottery. Premium quality pottery is a natural extension of the brand. The goal of Proven Winners remains consistent across all product lines – to bring beautiful, high performance solutions to market.

KEY BENEFITS OF AQUAPOTS™

Smart. Stylish. Sensational.

While you're saving time and labor, the plants grown in AquaPots are bursting with vigor due to their consistent access to nutrient-infused water.

AquaPots use 75% less water than drip irrigation systems without the hassle of drip tubing. Simply top off the tank once per week, or even less frequently for extra-large AquaPots.

The risk of overwatering is eliminated by the overflow valve. Even in heavy rain, the valve maintains the proper water level in the pot.

Because the soil and water reservoirs remain completely separate, AquaPots won't become clogged and the plants' roots won't suffocate from too much moisture.

Heavy duty components assemble and disassemble easily with no tools required. The self-watering insert can easily be taken apart, cleaned and reused year after year.

The completely sealed pot eliminates unsightly staining on the deck or lanai surface.

Nutrient-infused water continually feeds the plants without any runoff or waste. Simply add two scoops of Proven Winners Premium Continuous Release Plant Food to the fill tube at the time of planting and it will continue to feed for up to six months.

AquaPots reviews

"When Jack proposed these AquaPots to us, I'll admit I was skeptical that they would work like he said. However, after one full summer season of watering pots on our docks once a week as opposed to every other day, the labor savings alone paid for the entire collection of gorgeous pots in stunning Shepler's Blue! The plants and flowers also looked amazing all season long. We love them."

Chris Shepler – *President, Shepler's Mackinac Island Ferry, MI*

"The AquaPots self-watering planters have brought such joy to our tenants. They love how our plants around the common areas, pool, and entryways look so healthy and full now. The quality of the pottery is amazing too, and the fact that we don't have the staining and constant maintenance we used to have is a huge benefit for us."

Property Manager – *Dunnefoire Condominiums, Marco Island, FL*

"Wow! We are thrilled with our AquaPots system. The gorgeous pottery we handpicked in various shapes and sizes with the watering system built in could not be easier to maintain when we are home or traveling. These one of a kind pots are our best home investment to date. A GREAT addition to our outdoor living space!"

Gwen & Richard Z. – *Naples, FL*

"We love our AquaPots! They are stunning and always look perfect. No muss or fuss and believe me, I have done many pots in the past. Always problems with overwatering or underwatering. I even tried an irrigation system in my planter boxes only to have the lines get clogged and plants die...very frustrating and an expensive waste. We highly recommend this product because it works! The pots come in assorted colors and sizes and really enhanced the beauty of our home. We like the varied heights which add interest around our pool on the screened lanai."

Chrissy and Don P. – *Marco Island, FL*

HOW TO ORDER

All AquaPots are sold by BFG Supply Co., the exclusive distributor of Michael Carr Designs Pottery in North America.
