Acalypha pendula

Firetail Chenille Plant

  8-18cm (3-7")

Fluffy masses of bright red chenille flower spikes are produced periodically during the year. *Sobkovich*

Agrostis stolonifera

Green Twist

  25-36cm (10-14")

The bushy, grasslike foliage on this variety resembles bamboo with a healthy looking, unique vining habit. Green Twist must be kept well-watered during hot spells. Trailing habit. *Nordic*

Anagallis

WILDCAT Series

  15-30cm (6-12")

From the breeding program at the University of New Hampshire, Wildcat is a groundbreaking series of early-blooming, compact, large-flowered anagallis. These plants make a stunning addition to any container blooming from April until November.

Nordic, Sobkovich

'Wildcat Blue' ^{USPP15137}

Magnificent blue blooms.

'Wildcat Mandarin' ^{USPP18845}

Exquisite bright orange flowers.

Artemisia stelleriana

SILVER CASCADE[®]

 10-20cm (4-8")

Silver-grey foliage nicely complements flowering plants and adds contrast. Trailing habit. *Nordic*

Begonia

BELLECONIA™ Series

  20-30cm (8-12")

Large double blooms start earlier and keep blooming longer with increased heat and light level tolerance. *Nordic*

BELLECONIA™ Cream

BELLECONIA™ Hot Orange

BELLECONIA™ Rose

BELLECONIA™ Snow

BELLECONIA™ Soft Orange

Begonia x hiemalis

SOLENIA® Series

  20-30cm (8-12")

Compact, well-branched plants that set big, double blooms on glossy, dark foliage. Great sun tolerance. *Nordic*

SOLENIA® Chocolate Orange

SOLENIA® Dark Pink

SOLENIA® Light Pink

SOLENIA® Red

SOLENIA® Velvet Red

SOLENIA® Yellow

Begonia

SUMMERWINGS® Series

  20-30cm (8-12")

Huge, airy single blooms with continuous flowering all summer. Blooms earlier than traditional tuberous begonias. *Nordic*

SUMMERWINGS® Dark Elegance

SUMMERWINGS® Deep Red

SUMMERWINGS® Orange

Calibrachoa

MILLION BELLS® Series

  8-20cm (3-8")

Incredibly easy to grow, Million Bells are hugely popular. Their profuse, self-cleaning flowers arrive in spring and keep going until fall. Among the most hummingbird-friendly plants on the market. Great garden performers.

MILLION BELLS® Trailing Blue USPP20505

Nearly purple blooms with a bright yellow center.

Sobkowich

MILLION BELLS® Trailing Pink

Bright pink blooms and tight-growing foliage.

Sobkowich

Chlorophytum comosum

Spider Plant (White Edge) 25-50cm (10-20")

Arching green leaves rimmed with a white edge and cascading "babies". *Nordic*

Plectranthus scutellarioides

Coleus

Bold, versatile and colorful, these popular foliage plants are tolerant of varying light conditions, are easy to grow and are among the fastest-selling plants in any program.

Fishnet Stockings 61-91cm (24-36")

Symmetrical bright green leaves appear to be hand-painted with a deep burgundy variegation. *Nordic*

Freckles 61-76cm (24-30")

Bronze and orange splotches on creamy yellow leaves.

Sobkowich

Gay's Delight 61-91cm (24-36")

Lime green foliage with purple veins make a unique accent.

Nordic

Pineapple 30-46cm (12-18")

Lime green and yellow scalloped leaves with maroon edges.

Sobkowich

Cosmos astrosanguineus

Choca Mocha 25-30cm (10-12")

Delicate chocolate-colored flowers are held on sturdy stems surrounded by fern-like foliage. *Nordic*

Fuchsia

Dark Eyes 10-20cm (4-8")

Beautiful, deep blue corollas with red sepals from spring to fall. *Nordic*

Fuchsia

Swingtime 10-30cm (4-12")

Flowers with rich red sepals and white corollas bloom from spring to fall. *Nordic*

Fuchsia

Wilma Verslot

  25-36cm (10-14")

Stunning single blooms feature crimson red sepals and royal purple corollas that bloom spring to fall. Everblooming, even in full sun. *Nordic*

Pelargonium

TIMELESS™ Geranium

 30-46cm (12-18")

Timeless geraniums share the same great genetics as their forerunner, Caliente, which are popular with consumers. This interspecific cross between zonal and ivy geraniums exhibits more ivy traits than zonal traits. Available in an array of vibrant colors, they all share exceptional heat tolerance and deliver a strong garden performance. Timeless Pink and Timeless Fire have a more cascading, very well-branched habit while the others in this series are more mounded and compact. *Nordic*

TIMELESS™ Fire *** USPPAF CanPBRAF

TIMELESS™ Lavender *** USPPAF CanPBRAF

TIMELESS™ Orange 'Cante Oran' USPP20686 Can3733

TIMELESS™ Pink 'Cante Pinka' USPP20678 Can3734

Hedera

Ritterkreuz 8-15cm (3-6") Zone 5

Fairly vigorous grower with trailing, self-branching habit. The small, glossy dark green leaves have five to seven pointed lobes, often with little side branches. *Nordic*

Hedera

White Ripple 8-15cm (3-6") Zone 5

White Ripple has strong white and green variegation on 5-lobed leaves. Slower growing and self-branching. White Ripple is a trailing variety that works well in baskets or containers. *Nordic*

Heliotrope arborescens

Marine 38-51cm (15-20")

Large clusters of deep purple, vanilla-scented flowers all summer. Heat tolerant. *Nordic*

'Munstead' Lavender

  30-46cm (12-18") Zones 5-8

Compact English Lavender strain with soft blue flowers.

Greek Oregano

  30-41cm (12-16")

Compact well-branched variety. Essential herb for Greek or Italian cooking.

Arp Rosemary

  61-91cm (24-36") Zone 6

Strong upright growth with grey green needles.

Spearmint

  30-41cm (12-16")

Traditional spearmint flavor.

English Thyme

  15-30cm (6-12")

Vigorous, spreading plants with strong flavor.

Lemon Thyme

  15-30cm (6-12")

Semi-upright plants with strong citrusy flavor.

Impatiens

SUNPATIENS® Compact Series 41-76cm (16-30")

An industry leader in sun-loving impatiens, robust SunPatienS® Compact varieties bloom non-stop from spring through fall in full sun to part sun landscapes and containers. Their bushy, well-branched foliage is not affected by downy mildew, making them an ideal replacement for *Impatiens walleriana*, especially in Southern climates. *Nordic*

Lophospermum

LOFOS® Series

The Lofos® series tells it like it is. Tubular flowers adorn a cascading vine, which has a climbing habit and can be trained on a trellis. *Nordic*

LOFOS® Compact Rose

LOFOS® Compact White

Nemesia

JUICY FRUITS® Cherry on Ice

Dramatic and distinctive, Juicy Fruits Cherry on Ice is known for its intense colors and bloom production. Tolerates hot, dry conditions too. *Nordic*

Oxalis vulcanicola

MOLTEN LAVA™

Great color on this beauty. In low light the foliage is chartreuse, and in sunnier locations it's golden yellow.

Nordic, Sobkowich

ZINFANDEL™

An exotic beauty with extra-dark purple leaves and yellow blooms that appear all summer. *Sobkowich*

Petunia

SURFINIA® Series

These cascading petunias are strong and prolific growers that can take the heat. The Surfinia series features a range of vibrant colors that look spectacular in window boxes and hanging baskets.

Succulents

Aeonium

Kiwi

  15-30cm (6-12")

Low-growing, mounding variety with rosettes of pale yellow in the center become shades of chartreuse green to pink with red edges. *Nordic*

Aptenia

Variegata

 15-25cm (6-10")

Aptenia Variegata is a fast growing, trailing succulent that works perfectly in succulent baskets and planters. The cream and green leaves are covered with small magenta flowers in summer and fall. *Nordic*

Crassula

Princess Pine

  15-30cm (6-12")

This plant has a nice spreading habit and dark green reeds with slight purple tones throughout. *Nordic*

Crassula

Small Red Carpet Stonecrop

 15-20cm (6-8")

Multi-stemmed, upright plant with small, green, fleshy leaves. *Nordic*

Crassula

Sunset Curls

 15-20cm (6-8")

Twisted leaves with a soft red edge. *Nordic*

Crassula

Variegated Jade

 15-20cm (6-8")

Brightly variegated white and green fleshy leaves. *Nordic*

Echeveria

Arrow

 10-20cm (4-8")

Green rosettes with narrow, pointed leaves and bright red tips. *Nordic*

Echeveria

Black Prince

 10-15cm (4-6")

Black Prince features tight rosettes up to 3" wide with thin, triangular leaves that are a dark black colour. Rich burgundy red flowers appear on stalks in late autumn. *Nordic*

Echeveria

Elegans

 10-15cm (4-6")

Elegans is a rosette forming, grey-leafed succulent with blush pink hues when grown in bright light. *Nordic*

Echeveria

Frosty

 10-15cm (4-6")

Thick green leaves covered with white hairs gives it a frosty look. *Nordic*

Echeveria

Perle Von Nurnberg

 15-25cm (6-10")

Grey, symmetrical rosettes are highlighted with pink and purple. Coral-colored flowers appear in spring. *Nordic*

Echeveria nodulosa

Painted Echeveria

 25-46cm (10-18")

Definitive red lines mark the interior and edges of each leaf. Pinkish white flowers appear in fall. *Nordic*

Echeveria

Red Edge

 10-20cm (4-8")

Large, blue-green rosettes with a bright red edge. *Nordic*

Echeveria

Red Sky

 15-25cm (6-10")

Soft red leaves on vigorous growing plants. *Nordic*

Echeveria

Topsy Turvy

  10-15cm (4-6")

Topsy Turvy is a fast growing, rosette-forming succulent with twisted, blue-grey leaves. Flowers appear in late summer on tall stems. *Nordic*

Euphorbia

Firesticks

 15-30cm (6-12")

A great thriller in a succulent bowl with multicolored red, orange yellow and green stems. Cooler temperatures promote coloring. *Nordic*

Graptosedum

Vera Higgins

 10-20cm (4-8")

Rosette-shaped, reddish bronze leaves. *Nordic*

Kalanchoe pumila

Silver Grey

 15-25cm (6-10")

Scalloped foliage in shades of burgundy to dusty rose. Produces pink flowers in spring. *Nordic*

Kalanchoe tomentosa

Panda Plant

 61-91cm (24-36")

This unique plant has thick, soft, furry, silver leaves with a burgundy edge. *Nordic*

Pachyphytum

Silver Jelly Bean

 10-15cm (4-6")

Chubby, jelly bean-like, blue-green leaves develop reddish tips when grown in high light conditions. *Nordic*

Happy Bean *Peperomia*

Fine Leaf Gold *Sedum*

Ogon *Sedum makinoi*

'Illumination' *Vinca minor*

Peperomia

Happy Bean

🌞 25cm (10")

Long, narrow, bean-shaped, green leaves with curled edges. Vigorous, upright habit. *Nordic*

Sedum

Fine Leaf Gold

🌞 3-10cm (1-4")

A dense sea of finely textured, petite, yellow leaves. *Nordic*

Sedum makinoi

Ogon

🌞🌱 8-15cm (3-6") Zone 7

A low growing, mat-forming plant with small, golden yellow leaves. It prefers partial sun and dry to medium moisture. *Nordic*

Sedum morganianum

Burrito

🌞 10-20cm (4-8")

Long, trailing stems and densely packed foliage. Short, thick, lime green leaves. *Nordic*

Sedum nussbaumerianum

Copper Tones

🌞🌱 8-15cm (3-6")

Slightly fragrant white flowers appear on cylindrical, copper-toned foliage in January through April. *Nordic*

Sedum rubrotinctum

Brown Bean Sedum

🌞 15-20cm (6-8")

Jelly bean-like leaves on dense plants that change from green to red in summer. *Nordic*

Senecio rowleyanus

String of Pearls

🌱 Trails 61-91cm (2-3')

Round, succulent leaves carried down long, slender stems. They look more like peas than pearls, but this succulent is definitely a gem. *Nordic*

Senecio serpens

Blue Chalk Sticks

🌞 61-91cm (24-36")

Soft blue, round leaves cover this low-maintenance succulent. *Nordic*

Vinca minor

'Illumination' USPP12132 Can1632

🌞🌱 8-15cm (3-6")

Variegated foliage has an interesting coloration with lemon-colored leaves edged with lime. Blue flowers appear in spring.

Trailing habit. *Sobkovich*
