DECADENCE® DELUXE ‘Pink Lemonade’ Baptisia PPAf CPBRAf

DECADENCE® BAPTISIA

Hybridized and selected for their shorter, more compact habit and unique flower colors, DECADENCE® Baptisias are scaled to fit easily into today's home gardens. Their showy spring blooms add colorful flair followed by decorative seed pods which add interest to the fall garden.

Baptisia is an ancient perennial that was first used by Native Americans to make indigo dyes. It can be found growing naturally in meadows, tolerating heat and drought with ease and resisting deer browsing too. Be sure to choose a permanent location when planting Baptisia since mature plants resent being disturbed.

LEADING LADY SERIES (MONARDA)

'Leading Lady Lilac' Monarda PP26431 CPBR5565

Bee Balm typically bloom in midsummer, but the Leading Lady Series leads the way in early summer, flowering earlier and forming a more petite clump than other varieties. This series typically blooms from early summer (first week of June in Michigan) into midsummer and grows just a foot tall.

'Leading Lady Orchid' Monarda PPAF CPBRAAF

'Leading Lady Lilac' PP26431 CPBR5565 – Lilac pink flowers.

PARDON MY SERIES (MONARDA)

The Pardon My Series is a bit taller than the Leading Ladies and will bloom a few weeks later. Well branched habits are very showy while in bloom and have better disease resistance than older cultivars.

Bee Balm is native to eastern North America, so it is easy to grow and it multiplies quickly. The flowers' sweet nectar attracts scores of hummingbirds, butterflies, and bees to the garden. The aromatic foliage smells like mint when crushed and is often used to flavor teas.

- 'Pardon My Cerise' PPAF CPBRAFF – Cerise red flowers.
- 'Pardon My Lavender' PP28770 CPBR5567 – Lavender pink flowers.
- 'Pardon My Pink' PP24244 CPBR5100 – Medium pink flowers.

'Rose Sprite' Phlox PPAF CPBRAFF

SPRITE SERIES (WOODLAND PHLOX)

A new spring blooming Phlox that behaves differently than the standard Phlox subulata. Unlike the standard Creeping Phlox, the members of this series do not spread aggressively, rather, they form a low, mounding habit of star-shaped flowers. This variety also blooms a week or so later than Phlox subulata, great for extending the spring color of your garden. As an added bonus—although it prefers full sun, this Phlox will tolerate very light shade.

'Magenta Sprite' PPAF CPBRAFF – Magenta pink flowers.

'Purple Sprite' PPAF CPBRAFF – Bright purple flowers with a tiny white halo in the center.

'Rose Sprite' PPAF CPBRAFF – Rose pink flowers with a tiny white halo in the center.
