# What Will Consumers Want in 2013?

## Velvet Skies and New Introductions from Proven Winners

Consumers, growers, and retailers chose Velvet Skies as the Proven Winners national combination for 2013. In fact, of the six combinations presented to the public and the industry for online voting, Velvet Skies was the overwhelming favourite. With that kind of endorsement as well as extensive media exposure in print and on radio, Velvet Skies is sure to be in big demand for the coming season. Plus, as the first national combination to feature a first-year introduction, Blushing Princess™ Lobularia, Velvet Skies will be a real attention-getter.

And this beautiful trio of plants won't be the only combination must-have for 2013. For the first time, we are introducing our newest varieties in combinations, not just monos. Now, not only will you have beautiful new plants to produce for consumers, you'll also have proven combination recipes that you can use for the first year of introduction, instead of trying to make your own determination of what plants work best together. That means more opportunities to capitalize on the excitement of new, innovative plants matched with established favourites.

The following pages feature more than a dozen of these soon-to-be popular duos and trios. Be sure you're ready to take advantage of the sales – and profits – these new combinations will provide by ordering plenty of the Proven Winners plants shown here.

# Top-Selling Hanging Basket Combinations

Proven Winners has already created hanging basket tags for the combinations you see here, as well as many others. So plan your liner orders according to your own growing requirements, and leave the tags to us.

All you have to do is let us know that you would rather have hanging basket tags instead of variety tags. Not only will these tags make your job easier, they'll also make your customers happier because they won't have to look for tags that may be buried beneath the plants when the basket is grown.

## How to create your own custom tag

### How it's done

Contact your customer service representative at the Proven Winners propagator of your choice. They will get the information needed to set up the tag, including the name of the combination and the ingredients list. This information is then communicated by your Proven Winners propagator to the tag company, and the tags are ordered and then sent to you by the propagation company.

### Quantities?

Can be ordered in 210 or 1008 per combo. Minimum run size is a total of 3360 for the 210 increment and 16,128 for the 1008 increment. These runs can be put on press as needed. Your order may be able to be combined with those of other companies to meet the run minimum. Your Proven Winners propagator representative will work with you to fulfill run requirements.

### Limitations (# of plants)?

No more than 5 varieties can be shown on the tag, but we can list 6.

### Bundled?

They come in bundles of 21.

### UPC?

A barcode can be added if you provide one. Price can also be added if you provide one.

### There will also be three scheduled tag runs:

#### Run One –

*New Combos must be in by:* Week of Nov. 5th

*Orders in by:* Week of Dec. 3rd

*Ship by:* Week of Dec. 17th

#### Run Two –

*New Combos must be in by:* Week of Dec. 17th

*Orders in by:* Week of Jan. 14th

*Ship by:* Week of Jan. 28th

#### Run Three –

*New Combos must be in by:* Week of Feb. 4th

*Orders in by:* Week of Mar. 4th

*Ship by:* Week of Mar. 18th

If new varieties are submitted after in-by date, they will be held until the following run.
